

WORKING ALONGSIDE OXFORD FOOD HUB

Oxford Food Hub is at the centre of surplus food redistribution in Oxfordshire, providing food to over 200 charities. They provided over 497 tonnes of food of produce to local charities and community groups in 2022 alone, and are determined to keep providing this service with no charge to suppliers and charities. This fantastic work stems from the Hub's mission to,

MINIMISE FOOD WASTE

Save surplus food from producers and retailers, reducing carbon emissions and protecting the environment.

ALLEVIATE FOOD POVERTY

Provide free food to Oxfordshire charities and community groups, and increase access to healthy food.

It was a great pleasure for European Instruments to be able to assist Oxford Food Hub through the donation of a new set of scales. When the opportunity arose to help such a wonderful team who are dedicated to making a positive difference for people and the planet, it was impossible to say no. You can help Oxford Food Hub by volunteering as well as, donating food or money.

A massive thank you to [European Instruments Ltd](#), who have donated a brand new set of scales to our cause.

Tonnes of food comes through the Oxford Food Hub every week, and recording this data accurately is vital to us operating properly.

Here they are in action!
